

Appendix C

List of Foreign Countries and Their Disease Status

Introduction

This appendix lists the distribution of the animal diseases as identified in 9CFR 94. Use the *List of Foreign Countries and Their Disease Status*¹ to identify the animal diseases which occur and **do not** occur in each foreign country.

Figure C-1-1 is divided into columns. The left column alphabetically lists foreign countries. The right columns identify which animal diseases occur in each country; which animal diseases **do not** occur; and which countries have special requirements.

Listed below are the abbreviations used to describe the disease status categories:

ASF. African swine fever.

BSE. Bovine spongiform encephalopathy.

CSF. Classical swine fever (formerly HC, hog cholera).

END. Exotic Newcastle disease.

FMD. Foot-and-mouth disease.

HPAI (H5N1). Highly pathogenic avian influenza subtype H5N1. The following countries are affected with HPAI (H5N1): Afghanistan, Albania, Azerbaijan, Burkina Faso, Cambodia, Cameroon, China, Côte d'Ivoire (Ivory Coast), Denmark², Djibouti, Egypt, France², Germany², Hungary², India, Indonesia, Israel, Japan, Jordan, Kazakhstan, Laos, Malaysia, Myanmar, Niger, Nigeria, Pakistan, Palestinian Autonomous Territories, Romania, Russia, South Korea, Sudan, Sweden², Thailand, Turkey, Ukraine, and Vietnam. (Country listing will be updated as country status changes.)

SVD. Swine vesicular disease.

¹ Or other areas of special epidemiological interest to APHIS.

² Regionalized country. **Only** VS-defined areas are considered to be affected with HPAI (H5N1). Contact your local PPQ-VRS-AQI Veterinarian or a PPQ-VRS-HQ Staff Veterinarian for current information on VS-defined areas for regionalized countries.

In addition to the above, the following three disease status categories are included for regulating the importation of meat:

CSF/SR. Classical swine fever with special requirements.

FMD/SR. Foot-and-mouth disease with special requirements.

SVD/SR. Swine vesicular disease with special requirements.

A country with special requirements (SR) is known to be free from CSF, FMD, or SVD. However, one or more of the following conditions apply to the country:

- ◆ Supplements its national meat supply by importing meat from affected countries
- ◆ Imports live ruminants or swine from affected countries under conditions less restrictive than would be acceptable for importation into the United States
- ◆ Shares a common land border with an affected country or region

The disease status categories CSF/SR, FMD/SR, and SVD/SR **only** apply to meat imports. They **do not** apply to importations of inedible meat by-products.

Foreign Countries and Disease Status

Country	Disease Status	Free of:

FIGURE C-1-1 List of Foreign Countries and Disease Status (continued)

- 1 Highly pathogenic avian influenza subtype H5N1 is considered to exist.
- 2 Bermuda, a Dependent State of the United Kingdom, is FMD-free.
- 3 Currently Canada is the **only** country designated at minimal risk for BSE. Bovine, ovine, and caprine ruminant meat are treated differently from cervid and camelid ruminant meat. Where there is **not** a minimal risk for BSE designation, then regulate Canada as BSE-affected.
- 4 Highly pathogenic avian influenza subtype H5N1 is considered to exist throughout China, **except** Hong Kong (Special Administrative Region to the People's Republic of China), Macau (Dependency of People's Republic of China), and Taiwan (Province of China) which are **not** affected with highly pathogenic avian influenza (HPAI) subtype H5N1.
- 5 Highly pathogenic avian influenza subtype H5N1 is considered to exist in VS-defined territories **only**. Contact your local PPQ-VRS-AQI Veterinarian or a PPQ-VRS-VS Staff Veterinarian for current information on VS-defined areas.

- 6 Most of Germany is CSF/SR **except** Kreis Uckermark in the Land of Brandenburg; the Kreis Oldenberg, the Kreis Soltau-Fallingb.ostel, and the Kreis Vechta in the Land of Lower Saxony; the Kreis Heinsberg and the Kreis Warendorf in the Land of Northrhine-Westphalia; the Kreis Bernkastel-Wittlich, the Kreis Bitburg-Prm, the Kreis Donnersbergkreis, the Kreis Rhein-Hunsrche, the Kreis Sdliche Weinstrasse, and the Kreis Trier-Saarburg in the Land of Rhineland Palatinate; and the Kreis Altmarkkreis in the Land of Saxony-Anhalt which are CSF-affected.
- 7 Greenland, a Dependent State of Denmark, is FMD-free.
- 8 Greenland, a Dependent State of Denmark, is SVD-free.
- 9 Most of Italy is CSF/SR, **except** the regions of Emilia-Romagna, Piemonte, and Sardegna which are CSF-affected.
- 10 Most of Italy is SVD-affected, **except** Friuli, Liguria, Marche, and Valle d'Aosta which are SVD/SR.
- 11 The Island of Sardinia is affected with ASF.
- 12 Most of Mexico is CSF-affected, **except** the States of Baja California, Baja California Sur, Campeche, Chihuahua, Quintana Roo, Sinaloa, Sonora, and Yucatan which are CSF/SR.
- 13 Most of Mexico is END-affected, **except** the States of Campeche, Quintana Roo, and Yucatan, which are END/SR.
- 14 Uruguay is considered at negligible risk for FMD.
